WORKSHEET

Distance, speed and time

Part A

Use the appropriate formula, $D = S \times T$, $S = D \div T$ or $T = D \div S$ to determine the value of the third pronumeral.

1 $S = 2$ km/h, $T = 5$ hours, $D =$ _____km

2 $D = 60$ km, $S = 30$ km/h, $T =$ _____ hours

3 $S = 10$ km/h, $T = 3$ hours, $D =$ _____ km

4 $D = 120$ km, $T = 2$ hours, $S =$ _____ km/h

5 $S = 12$ km/h, $T = 60$ hours, $D =$ _____ km

6 $D = 100$ km, $S = 4$ km/h, $T =$ _____ hours

7 $T = 5$ hours, $D = 15$ km, $S =$ _____ km/h

8 $D = 125$ km, $S = 25$ km/h, $T =$ _____ hours

9 $S = 40$ km/h, $T = 4$ hours, $D =$ _____ km

10 $T = 8$ hours, $D = 800$ km, $S =$ _____ km/h

11 $T = 20$ hours, $S = 2$ km/h, $D =$ _____ km

12 $D = 72$ km, $T = 4$ hours, $S =$ _____ km/h

13 $S = 60$ km/h, $T = 30$ minutes, $D =$ _____km

14 $S = 40$ km/h, $D = 10$ km, $T =$ _____minutes

15 $T = 1\frac{1}{2}$ hours, $S = 80$ km/h, $D =$ _____km

Part B

1 Karen is driving at a constant speed of 60 km/h. How far will she drive in 3 hours?

2 Brian has to travel to an appointment 24 km away. He has to be there in 30 minutes. What average speed does he need to get to the appointment on time?

3 Cheetahs can run at 31 m/s. How far can a cheetah run in 10 seconds?

4 A peregrine falcon can fly at a speed of 90 m/s. At this speed, how long will it take to fly 360 m?

5 Ali ran 200 m in 50 seconds. Calculate his average speed in m/s.

6 An ambulance is travelling along the freeway to an accident at a speed of 120 km/h. The accident is 15 km from the ambulance station. How long will the ambulance take to travel from the station to the accident?

7 Boris is a long distance runner. During long distance events he runs at an average speed of 12 km/h.

a How far can Boris run in 4 hours?

b How long does it take Boris to run 4 km?

8 The minimum speed a rocket needs to be able to escape the Earth's gravity is 11.2 km/s. At a speed of 11.2 km/s, how far will a rocket travel in 1 hour?

9 It is 30 km from Margaret River to Karridale. How long will it take to drive from Karridale to Margaret River at an average speed of 75 km/h?

Answers

Part A

1 10

2 2

3 30

4 60

5 720

6 25

7 3

8 5

9 160

10 100

11 40

12 18

13 30

14 15

15 120

Part B

1 180 km/h

2 48 km/h

3 310 m

4 4 seconds

5 4 m/s

6 $7\frac{1}{2}$ minutes

7 **a** 48 km

b 20 min

8 40 320 km

9 24 minutes
