WORKSHEET

Chapter 4: Income – commission and piecework

The best portion of a good man's life is …

William Wordsworth

Work out the answers to the questions below, rounding percentages to one decimal place.
The solutions will give you the corresponding letter to place in the cells above.

Questions

A car yard pays its salespeople 5% for the first $10 000 of the value of the cars they sell, 4% for the next $10 000, and 3% of any amount after that. Calculate the amount of commission received if the following cars are sold.

1 A $7000 Datsun

2 A $39 990 Commodore

3 A $17 499 Charade

Outworkers who sew T-shirts together are paid a wage of $3 per hour plus $1.45 for each T-shirt sewn together. Calculate the average hourly wage for each of the following workers.

12 Kellie, who sews 90 T-shirts over 8 hours

13 Nicole, who sews 47 T-shirts over 6 hours

14 David, who sews 116 T-shirts over 10 hours

How many T-shirts were sewn by the following workers?

15 Cameron, who earned $547.55 for a 38-hour week

16 Jasmine, who earned $662.30 for a 40-hour week

A door-to-door roofing salesman receives a 30% commission on the value of his sales, plus a $105 weekly retainer.

17 How much income does he receive in a week when he sells $1305 worth of roofing?

18 How much roofing did he sell in a week when he earned $790?

Solutions

A 374

B $1499.70

C $16 912

D $19.31

E $496.50

F $11 800

H $799.96

I $440 000

K $19.78

L 299

M $2283.33

N $19.82

O $27 754

R $24 690

S $14.36

T 189

U $350

V $159.10
