

The Legend of Hades Hall - Day Three

Yesterday, you found this tooth in Maximilian's room. You need to investigate further. Your scientist could lead this discussion.

1. This tooth is a **canine** tooth. What do animals use their canines for?

Circle the correct answer:

- to break apart nuts and seeds
- to grind meat and other hard food
- to grab and tear meat

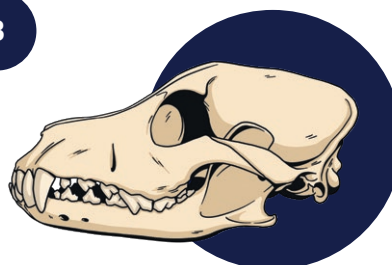

2. Look at the tooth again. Which animal do you think it came from?

A

B

C

D

3. Match the skull letters from the previous question to the animal.

A	badger
B	horse
C	dog
D	human

The Legend of Hades Hall - Day Three

4. What animal do you think was in the viscount's room?

The Library

You are in the library of Hades Hall, with thousands of books, clocks and beautiful globes. Earl Hades has quite a collection, organised using the Dewey Decimal System that your linguist knows well. Let them lead.

The categories for the Dewey Decimal System are as follows:

000-099	Computer Science, Information and General Works
100-199	Philosophy and Psychology
200-299	Religion
300-399	Social Services
400-499	Language
500-599	Science
600-699	Technology
700-799	Arts and Recreation
800-899	Literature
900-999	History and Geography

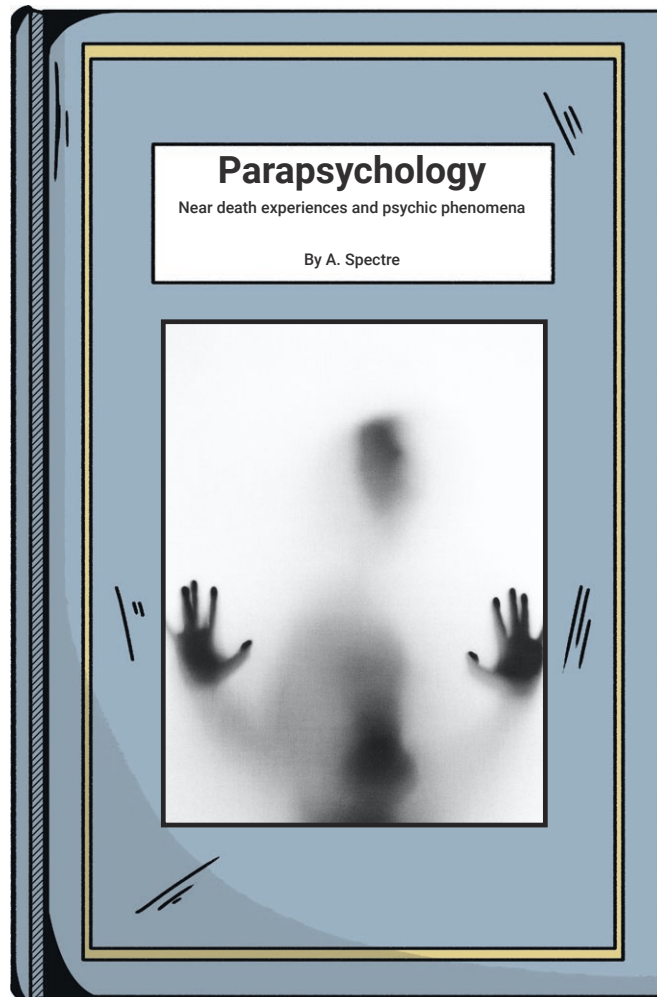

5. What section will you look in to find clues about Viscount Maximilian? Give a reason why.

6. Which number categories would you go to if you were trying to answer these questions?

Finding the name of a former Prime Minister.	
Checking how you pronounce "bună ziua!" - a common greeting in Romanian.	
Exploring a diagram of a guitar.	
Discovering the work of Victorian artist George Jones.	

The Legend of Hades Hall - Day Three

You look in the Science department and find a book left out and lying in front of the shelf:

As you grab it, it falls open to a well-used page. The following paragraph has a red circle around it, indicating it was important to someone:

Mania and Madness

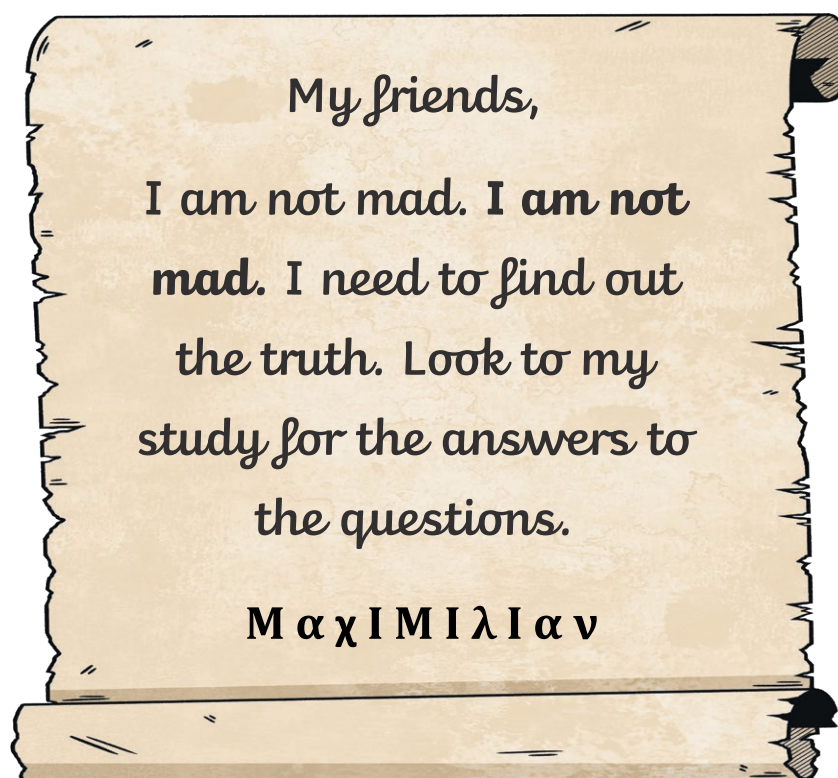

'It is too easy to just state one is "crazy" and feeling as if they are going mad. It is up to the scientific and logical mind to hone these symptoms and explore what about the behaviour is (supposedly) insane.

One may be giddy with excitement and then crash into irritation. They may exhibit daring behaviour as their mind races and then suffer from poor focus as a result. It is not often the result of seeing something supernatural that results in this display - more so, there has been a triggering event that has affected it.'

The Legend of Hades Hall - Day Three

7. In your own words, summarise three traits that people might have when they think they are going crazy.

You dash to the languages shelf, finding two books sticking out. Your linguist tells you they do not belong together and must have been placed back in a hurry. Removing them, you find a scrawled note.

Suddenly, Winters appears and hands you three envelopes on a silver tray. They are all stamped and bear the familiar handwriting: Η α δ ε σ Η α λ λ . Winters clears his throat.

"I was asked by the young sir to give these to you, his friends, when you reached the library. He has asked that you choose only one letter; the others are to his mother and father respectively."

The Legend of Hades Hall - Day Three

8. Which will you choose?

5476

6671

7782

9. You go to the study door and see a padlock securing the door. You take the key from the envelope and try to unlock the door. Are you successful?

The Legend of Hades Hall - Day Three Answers

1. This tooth is a **canine** tooth. What do animals use their canines for? Circle the correct answer:

- to break apart nuts and seeds
- to grind meat and other hard food
- **to grab and tear meat**

2. Look at the tooth again. Which animal do you think it came from?

3. Match the skull letters from the previous question to the animal.

A	human
B	dog
C	horse
D	badger

4. What animal do you think was in the viscount's room?

a dog

5. What section will you look in to find clues about Viscount Maximilian? Give a reason why.

Learners could say 500-599 Science, due to the clues dropped by the valet in yesterday's lesson or 400-499 Languages based on the book on Greek language.

6. Which number categories would you go to if you were trying to answer these questions?

Finding the name of a former Prime Minister.	History: 900-999
Checking how you pronounce "bună ziua!" - a common greeting in Romanian.	Language: 400-499
Exploring a diagram of a guitar.	Arts and Recreation: 700-799
Discovering the work of Victorian artist George Jones.	Arts and Recreation: 700-799

The Legend of Hades Hall - Day Three Answers

7. In your own words, summarise three traits that people might have when they think they are going crazy.

The following answers are acceptable traits when people who think they are going crazy. Accept a gloss of these responses:

- Could be very happy and then change unexpectedly into anger or frustration.
- Behave in an unusually dangerous or overconfident way.
- They are unable to concentrate.
- Their minds move very quickly from one thing to another.

8. Which will you choose?

5476

6671

7782

From the previous lesson, learners will realise it is the missing stamp from yesterday. The correct number is 5476.

9. You go to the study door and see a padlock securing the door. You take the key from the envelope and try to unlock the door. Are you successful?

You could check the numbers, either by using a show of hands, whiteboards or any other way of quickly establishing the correct code, learners can proceed to Day 4.
