INTRODUCTION

Instant Lessons PowerPoint slide presentations have been designed to assist teachers in presenting essential geography curriculum to junior and middle secondary school students. Physical, environmental, social and political geography themes are included throughout the series.

What's on the CD-ROM in this book?

- 5 PowerPoint slide presentations
- the teacher's notes and activity sheets in this book, as an editable Word document
- the teacher's notes and activity sheets in this book, as a PDF document.

Key features and uses:

- ✓ Each topic is explored through a core set of slides.
- ✓ Teachers can tailor-make their own slide presentations by adding, deleting or altering slides.
- ✓ Carefully chosen diagrams, maps, graphs, illustrations and photographs illustrate the concepts being taught.
- ✓ On-screen activities test and extend student comprehension.
- ✓ Teacher's notes are provided in this book for each topic.
- ✓ Student activity sheets have been designed so that they can be used during the presentation or later in the classroom, or as homework, extension, assessment or revision. They can be accessed on the CD-ROM in PDF and Word formats, or photocopied from this book.

POWERPOINT USER GUIDE

It is recommended that teachers preview the slide sets before showing them to their class, to become familiar with the format and features.

Read the Teacher's notes for an overview of each topic, including key terms and concepts.

The PowerPoint presentations

Starting a slide show presentation

The slide show is used to display the presentation on the screen. It is recommended that you use an external projector or IWB for whole-class use.

There are a number of ways to begin a slide show presentation. In the Windows environment, the CD-ROM will autorun. From the Main menu, simply click on the presentation you wish to view.

In the Macintosh environment, double-click the 'Geography-AP' icon. From the Main menu, click on the presentation you wish to view.

You can also open each presentation from within the PowerPoint application.

Navigating

Main menu

- ◆ From the Main menu, click Close to quit.
- ◆ During the presentations, click Close in the top right corner at any time to return to the Main menu.

Navigating using the mouse

- ◆ Click – Moves presentation to the next slide.

Moving forward

- ◆ Press the N key.
- ◆ Press the Spacebar or Enter key.
- ◆ Press the Page Down key.
- ◆ Press the Right Arrow key.

Moving backward

- ◆ Press the P key.
- ◆ Press the Backspace key.
- ◆ Press the Page Up key.
- ◆ Press the Left Arrow key.

Navigating using the slide show toolbar

At the bottom left corner of the slide show, a toolbar is displayed. There are three buttons that deal with navigation.

- ◆ Left Arrow button – Moves presentation back to the previous slide.
- ◆ Right Arrow button – Moves the presentation to the next slide
- ◆ Slide Icon button – Provides a pop-up menu with Next and Previous menu items, as well as a Go to Slide item that allows for navigation to a specific slide.
- ◆ Right-Click – Provides a pop-up menu with Next and Previous menu items, as well as a Go to Slide item that allows for navigation to a specific slide.

Navigating to a specific slide

There are a number of different ways to display a specific slide.

- ◆ Slide Number + Enter – While in the slide show mode, type in the slide number to be displayed and press Enter.
- ◆ Control-S – To display a menu of all slides in the presentation, press Control and S keys. A menu will appear. Select the desired slide from the menu and press Enter.
- ◆ Slide Icon button – Choose the Slide Icon button from the slide show toolbar. Choose Go to Slide, then choose the desired slide.
- ◆ Right-Click – Choose Go to Slide, then choose the desired slide.

Blanking out the screen

To present a blank screen while in the slide show mode:

- ◆ Slide Icon button – Choose the Slide Icon button from the slide show toolbar. Choose Screen menu item. Select Black Screen or White Screen.
- ◆ Right-Click – Choose Screen menu item. Select Black Screen or White Screen.

Pointer / pen

The Pointer and Pen tools can be used in the slide show view to highlight or draw on the screen, much as would be done on a whiteboard. Drawings can be saved with the presentation or discarded.

Note that while using Pointer tools during a slide show, you will not be able to click the mouse to move to the next slide. Instead, use one of the alternative navigations provided on the previous page, such as the Right Arrow key.

To activate the Pointer tools:

1 In slide show view, right-click, choose Screen | Pointer Options (or click on the Pen icon in the slide show toolbar) and choose one of the following.

- ◆ Arrow – provides an arrow on the screen.
- ◆ Ballpoint Pen – used to write notes on the screen.
- ◆ Felt Tip Pen – a wider pointed pen, useful for drawing. (Windows Office 2003 or higher only)
- ◆ Highlighter – used to apply a highlight of colour that is transparent. (Windows Office 2003 or higher only)
- ◆ Ink Colour – Choose the colour to be used with the tool.
- ◆ Eraser – used to erase entries. (Windows Office 2003 or higher only)
- ◆ Erase All Ink on Slide – removes all entries from the screen. (Windows Office 2003 or higher only)

2 Use the mouse to draw or write on the screen.

Ending a presentation

Each of these actions will end the presentation:

- ◆ Click Close in the top right corner.
- ◆ Press the Esc key.
- ◆ Right-click and choose End Show.
- ◆ Choose the Slide Icon button in the slide show toolbar & select End Show.

Technical specifications Windows

The CD-ROM will autorun in the Windows environment.

To view the presentations – Windows XP or later operating system

To edit a presentation, open it from within the PowerPoint application.

Note that if editing these PowerPoint presentations in a version prior to Office 2000, cosmetic losses may occur and visual effects such as drop shadows may be lost. These losses are cosmetic only, and will not affect the clarity and content of the slide show.

Macintosh

Double-click the file 'Geography-AP' icon on the CD-ROM. From the Main menu, click on the presentation you wish to view.

You can also open each presentation from within the PowerPoint application.

To view a fully featured presentation, and edit it, you must have the PowerPoint 2004 application installed. (i.e. Office 2004 for Macintosh or later)

To edit a presentation, open it from within the PowerPoint application. Note that if editing these PowerPoint presentations in a Macintosh environment, cosmetic losses will occur in some animations, and visual effects such as drop shadows may be lost. These losses are cosmetic only, and will not affect the clarity and content of the slide show.

Teacher's notes on the CD-ROM

To open these files you need:

- ◆ **PDF file** – Adobe Acrobat Reader
- ◆ **Word document** – Microsoft Office 2000, or higher.

TOPIC 1: The geography of the Asia Pacific region

This series of slides explores the physical geography and human geography of the region – Asia and Oceania. Geographical features are contrasted with those of Australia.

Key terms: human geography, physical geography, Pacific Rim, continental plates, seismic activity, natural disaster, conflict, culture, economy, indigenous, climate, agriculture, industry, globalism

Concepts explored:

- What human geography and physical geography refer to
- Geology of the Pacific Rim
- Where Asia is and the countries it includes
- Where Oceania is and the countries it includes
- Social instability in Asia
- Rural-to-urban migration, its causes and effects
- Occurrence of natural disasters, types of natural disasters and their effects
- Australia's geological stability
- Australia's climatic extremes
- The Australian Aboriginal people
- Climatic conditions throughout the Asia Pacific

Activity sheets

- Use *The geography of the Asia Pacific region 1a* and *1b* to test student understanding of the concepts explored in the slide show.
- *The geography of the Asia Pacific region 2* provides the opportunity for students to apply these concepts to new scenarios.

TOPIC 2: Australia's place in the Asia Pacific region

This series of slides explores Australia's regional and global connections and how it contributes to the stability, wealth and well-being of the region.

Key terms: globalisation, universal goals, humanitarian, security, United Nations, developed nations, developing nations, human rights, aid, equality, diplomacy

Concepts explored:

- Australia's international focus
- Australia's trading partners
- International political links
- The Commonwealth of Nations
- The United Nations
- Australia's commitment to international aid, especially in the Asia Pacific region
- The Universal Declaration of Human Rights
- Australia's involvement with ASEAN and APEC

Activity sheets

- Use *Australia's place in the Asia Pacific region 1a* and *1b* to test student understanding of the concepts explored in the slide show.
- *Australia's place in the Asia Pacific region 2* provides the opportunity for students to apply these concepts to new scenarios.

TOPIC 3: Trade in the Asia Pacific region

This series of slides investigates aspects of trade, introducing financial, social and humanitarian considerations. The global marketplace and Australia's place within it is explored, as well as the roles of organisations such as the World Trade Organisation, the Asia Pacific Economic Co-operation and the Organisation for Economic Co-operation and Development.

Key terms: trade, communication, co-operation, the global village, resources, transnational corporations (TNCs), Gross National Product (GNP), Gross Domestic Product (GDP), free trade agreements

Concepts explored:

- The effects of transnational corporations on economics and trade
- Australia's international trade focus
- Gross National Product and Gross Domestic Product as useful comparisons
- Relative wealth in the Asia Pacific regions
- The gap between the rich and the poor
- The economic, social and ethical issues associated with imported goods
- Australia's exports and imports
- The roles of the WTO, APEC and OECD
- Using trade to benefit other nations

Activity sheets

- Use *Trade in the Asia Pacific region 1a* and *1b* to test student understanding of the concepts explored in the slide show.
- *Trade in the Asia Pacific region 2* provides the opportunity for students to apply these concepts to new scenarios.

TOPIC 4: How Australia assists its Asia Pacific neighbours

This series of slides explores Australia's contributions to the region in terms of diplomacy and aid. The issues, goals and constraints of these activities are also introduced.

Key terms: security, natural disasters, epidemic, terrorism, infrastructure, resources, defence, peacekeeping forces, United Nations, diplomacy, negotiations, sanctions, international aid, humanitarian, poverty

Concepts explored:

- Australia's assistance after natural disasters in the region
- Threats from human activities
- Australian involvement in UN peacekeeping missions
- Diplomacy in the region
- Alternatives when diplomacy fails
- The role of the Australian Agency for International Development (AusAID)

Activity sheets

- Use *How Australia assists its Asia Pacific neighbours 1a* and *1b* to test student understanding of the concepts explored in the slide show.
- *How Australia assists its Asia Pacific neighbours 2* provides the opportunity for students to apply these concepts to new scenarios.

TOPIC 5: Co-operating with our Asia Pacific neighbours

This series of slides identifies a variety of problems facing the Asia Pacific region, and strategies for solving these problems. The problems explored include environmental issues, natural hazards, human rights and social justice.

Key terms: climate change, human rights, disease, agriculture, marine environments, food web, ecosystem, social justice, education

Concepts explored:

- Global effects of climate change
- Human rights issues in the region
- Considering further implications
- Effects on the environment of rural-to-urban migration
- The role of geographer in combating climate change
- The link between greenhouse gas emissions and extreme weather events
- Strategies for addressing environmental problems

Activity sheets

- Use *Co-operating with our Asia Pacific neighbours 1a* and *1b* to test student understanding of the concepts explored in the slide show.
- *Co-operating with our Asia Pacific neighbours 2* provides the opportunity for students to apply these concepts to new scenarios.

THE GEOGRAPHY OF THE ASIA PACIFIC REGION 1A

Physical and human geography

Many factors have shaped the Asia Pacific region. The *human geography* of a nation is influenced by its *physical geography*.

1 What is included in a nation's *physical* geography?

2 What is a nation's *human* geography?

3 Use these words to complete the statement below: *physical, human*.

The _____ geography of a nation is influenced by its _____ geography.

4 Why is the Pacific Rim geologically unstable?

5 List four types of natural disasters that occur in the Asia Pacific region.

Asia

Asia is a huge landmass joined to the European continent. It also consists of numerous islands.

6 List at least five countries in Asia.

7 How has the closeness of many highly populated nations in Asia affected its people?

8 What are two possible reasons for the severe food shortages in many Asian countries?

9 Why do some rural-dwelling people in Asia move to city areas?

10 When natural disasters occur in urban areas in Asia, they usually cause high casualty rates. Why is this the case?

The physical geography of Australia

11 Australia is a country of climatic extremes. Complete these climatic descriptions.

a _lp_n_ r_gi_ns

b h_r_h d_s_r_s

c s_v_nn_h gr_ssl_nds

d t_mp_r_t_ gr_w_ng r_g_o_s

THE GEOGRAPHY OF THE ASIA PACIFIC REGION 1B

e m _ _ nt _ _ ns

f r _ v _ r v _ ll _ _ s

g tr _ p _ c _ l r _ _ nf _ r _ s _ s

Because of the continent's vast size and its isolation, the Australian Aboriginal people remained isolated from other cultures for thousands of years.

12 Describe the connection that many Indigenous Australians have with the land.

13 Why are so many Australian cities located near the coast?

14 What type of climate does Papua New Guinea have?

15 What natural disasters are caused by a monsoonal climate?

16 Which country is made up of the North Island and the South Island?

Oceania

The great natural beauty of Oceania has led to a tourism industry that attracts visitors from all over the world.

17 Unscramble the words to complete the sentence below.

Oceania includes the Pacific island clusters of _____ (aeaeilsMn), _____ (scrainieoM) and _____ (lioepYns).

18 List at least five countries in Oceania.

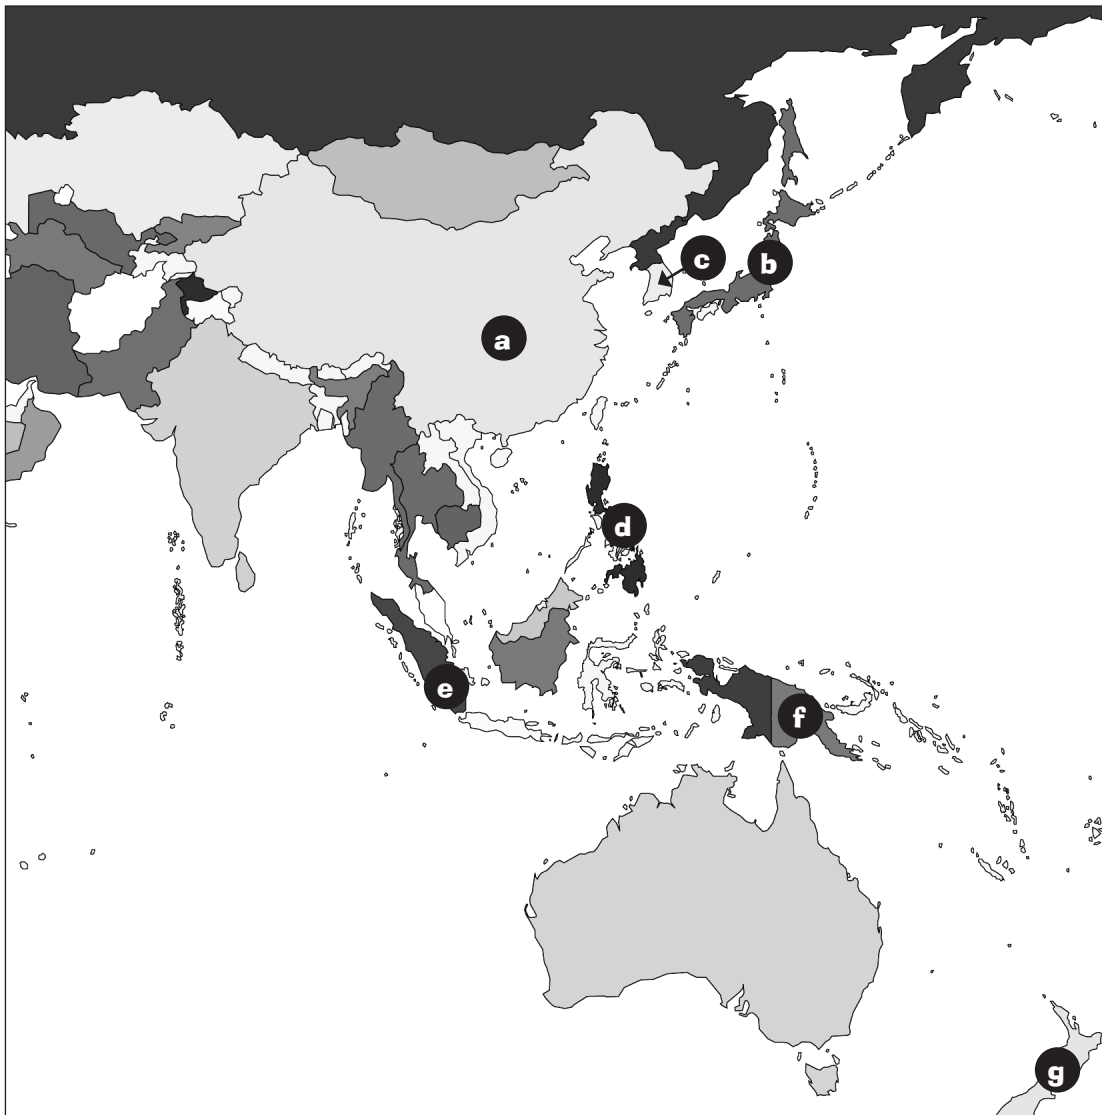

19 How might tourism have a negative impact on the natural environment of the Pacific islands?

20 List five sources of food in the Pacific islands.

21 Name one traditional handcraft of the Oceania region.

THE GEOGRAPHY OF THE ASIA PACIFIC REGION 2

Mapping the Asia Pacific region

- 1** Label the map by writing the name of each country listed below beside the correct number. Try completing this task by using your general knowledge, then use an atlas to check your answers.
China, Indonesia, Japan, New Zealand, South Korea, the Philippines, Papua New Guinea

- 2** Complete the names of these countries in the region of Asia. Then, where possible, label any extra countries on the map.

a C _ M B _ D _ A

b I _ D _ N E _ I A

c J _ _ A N

d L _ O _

e M _ L _ Y _ I A

f P _ I _ I _ P I N _ S

g T _ _ W _ N

h T _ A _ L A _ D

- 3** What do you think is an appropriate response from Australia when our Asia Pacific neighbours experience a natural disaster?

AUSTRALIA'S PLACE IN THE ASIA PACIFIC REGION 1A

Australia's Asia Pacific focus

There has been a gradual shift in the world's balance of economic and defensive power since World War Two.

- 1 Describe this shift in the world's balance of economic and defensive power.

Australia's global commitments

These days, people think globally. Political links now stretch across the world. One nation's activities can have a significant impact on another nation.

- 2 Which two Asian countries are now Australia's primary trading partners?
- 3 List three examples of advances in global communications technology that have motivated people to think globally.
- 4 List three goals of the global organisations that Australia belongs to.
- 5 Write the full names of these three global organisations.
- a The Commonwealth _ _ _ _ _
- b UN: _ _ _ _ _
- c UNESCO: _ _ _ _ _ / _ _ _ _ _
- 6 Are most members of the Commonwealth of Nations *developed countries* or *developing countries*?
- 7 Complete these issues that the Commonwealth of Nations is involved in promoting.
- a d _ m _ cr _ cy b g _ v _ r _ _ nce c l _ w
- d h _ m _ n ri _ h _ s e e _ o _ om _ c s _ a _ i _ ity
- 8 What is CHOGM?

The United Nations

The United Nations is the world's most important global organisation. Its aims are global security, peace, and economic equality.

- 9 When did Australia join the UN? _ _ _ _ _

AUSTRALIA'S PLACE IN THE ASIA PACIFIC REGION 1B

10 List at least three countries in the Asia Pacific region that are United Nations members.

11 True or false?

- a** The Indian Ocean tsunami occurred in 2008. _____
- b** Australia has helped neighbouring nations manage the spread of new influenza strains. _____
- c** Australia has provided peacekeeping forces to the Solomon Islands. _____

The Universal Declaration of Human Rights

The Universal Declaration of Human Rights aims to promote freedom, justice and peace in the world. Many articles of the Declaration deal with equal treatment for all people.

12 What basic principle does the Declaration proclaim about the people of the world?

13 List four human rights that the Universal Declaration of Human Rights addresses.

14 What is the goal of UNESCO?

Australia's regional commitments

Australia is also associated with some regional organisations in the Asia Pacific.

15 What are two regional organisations with which Australia is associated? Give the abbreviation and full name of each one.

AUSTRALIA'S PLACE IN THE ASIA PACIFIC REGION 2

Thinking more about Australia's relationships in the Asia Pacific

1 How has globalisation changed the way people shop in Australia?

2 How can being part of the United Nations have a positive effect on Australian citizens?

3 What evidence is there that the Australian government generally respects the right of people in Australia to practise their own religion or change it if they want to?

4 Do you think most Australians exercise their right to be employed, to enjoy leisure time and to access healthcare and education? Explain your answer.

5 Why do some groups in Australian society not have the same ability to exercise the rights outlined in question 4?

6 Summarise your opinion about how Australia should respond to refugees seeking our protection, considering these articles of the Declaration of Human Rights:

Everyone has the right to travel wherever they like and if they desire, to live in another country.

Everyone has the right to ask another country for protection if they are in danger or are being persecuted.

TRADE IN THE ASIA PACIFIC REGION 1A

Australia interacts in the Asia Pacific region through trade, communications and cooperation. Studying these issues helps us become more caring and involved citizens of the region.

- 1** Why has the globalisation of business and trade occurred?

Transnational corporations (TNCs)

Globalism has affected economics and trade through transnational corporations (TNCs) that operate across international boundaries.

- 2** What do transnational corporations do?

Trade

Currently, nearly 70% of Australia's international trade is conducted within the Asia Pacific region.

- 3** Write each abbreviation next to the correct definition: *GNP*, *GDP*.

- a** _____ : The estimated income that Australian citizens living in and outside of the country generate.
- b** _____ : The total value of goods and services produced within the borders of a particular country.

- 4** How does Australia's GDP in 2008 compare to that of our Asia Pacific neighbours?

Cheap labour

Australia imports most of its manufactured goods from China. This is because labour costs are cheaper in China.

- 5** Why are labour costs cheaper in China than they are in Australia?

Global economic imbalance

In 2007, the 12 richest countries in the world produced and controlled two thirds of all the world's income.

- 6** What is meant by 'the gap between rich and poor'? _____

Australia's imports and exports

Australia has vast deposits of natural resources, including minerals, ores and fossil fuels.

- 7** List three of Australia's major mineral exports.

- 8** List three of Australia's major agricultural exports.

- 9** List three products that Australia manufactures for export.

- 10** Australia imports a lot of manufactured goods from China. List three types of goods that are available in Australian stores that are often made in China.

Australia's international trade agreements

- 11** Outline the purpose of the WTO.

APEC

Most of Australia's international trade is conducted under the rules of the APEC organisation. APEC stands for Asia Pacific Economic Cooperation.

- 12** APEC believes in the principles of free trade. Which of the following are principles of free trade? Circle yes or no for each one.

- a** Paying extremely low wages – yes *no*
- b** Keeping production costs low – yes *no*
- c** Taxing products highly when they enter a country as imports – yes *no*
- d** Removing barriers to trade – yes *no*
- e** Making commodities available only to wealthy people – yes *no*
- f** Increasing a country's exporting power – yes *no*

TRADE IN THE ASIA PACIFIC REGION 2

Australian exports and imports with APEC members

Major Australian exports		Major Australian imports	
China		Japan	
Iron ore & concentrates	Clothing	Coal	Passenger motor vehicles
Coal	Telecom equipment & parts	Iron ore & concentrates	Refined petroleum
Wool & other animal hair	Computers	Beef	Goods vehicles
Copper ores & concentrates	Prams, toys, games & sporting goods	Aluminium	Civil engineering equipment & parts
French Polynesia		Micronesia	
Cereal preparations	Pearls and gems	Meat, prepared or preserved	Transmission shafts & parts
Beef		Wheat flour	Non-electrical machinery & parts
Liquefied propane & butane		Milk & cream	Electrical circuits equipment
Rotating electric plant & parts		Refined petroleum	Orthopaedic appliances
Hong Kong		New Zealand	
Crustaceans	Telecom equipment & parts	Medicaments	Crude petroleum
Pearls & gems	Printed matter	Refined petroleum	Gold
Telecom equipment & parts	Jewellery	Passenger motor vehicles	Alcoholic beverages
Fruit & nuts	Computer parts & accessories	Printed matter	Paper & paperboard
Indonesia		USA	
Live animals	Crude petroleum	Beef	Civil engineering equipment & parts
Wheat	Gold	Alcoholic beverages	Measuring & analysing instruments
Aluminium	Wood, simply worked	Crude petroleum	Goods vehicles
Cotton	Monitors, projectors & TVs	Aircraft, spacecraft & parts	Medicaments (incl. veterinary)

- 1

Suggest why China imports a lot of wool from Australia.
- 2

Why doesn't Australia keep spacecraft parts for our own use, rather than exporting them to the USA?
- 3

Use three different colours to highlight the minerals products, agricultural products and manufacturing products in the tables above. Outline any links you see between a country's level of development, relative size and relative wealth in regard to its imports from and exports to Australia.
- 16

POWERPOINT GEOGRAPHY – AUSTRALIA'S PLACE IN THE ASIA PACIFIC

ISBN 978 1 92571 024 3

© Blake Education 2010

How AUSTRALIA ASSISTS ITS ASIA PACIFIC NEIGHBOURS 1A

Australia assists countries of the Asia Pacific in various ways, such as security, defence and diplomacy.

- 1** List three ways that building international friendships can benefit Australia.

Security from the effects of natural disasters

Australia works to preserve the security of people who have been placed in danger by natural forces.

- 2** List two countries Australia has assisted after natural disasters in recent times.

Security from human activities

Australia also helps provide security from human activities.

- 3** List three human activities that could present a threat to the safety of a nation's citizens.

Defence

- 4** Unscramble the names of these nations to which Australia has sent peacekeeping forces.

- a** teltismore _ _ _ _ _ _ _ _ _ _
b son solid salmon _ _ _ _ _ _ _ _ _ _
c bamcodia _ _ _ _ _ _ _ _ _ _
d iianeodsn _ _ _ _ _ _ _ _ _ _

Diplomacy

In geographical and political terms, *diplomacy* refers to the art of negotiating between powers to achieve mutual benefits.

- 5** Complete the sentence below.

Diplomats hold talks to make decisions about _ _ _ _ _ , _ _ _ _ _ _ _ _ _ _ , _ _ _ _ _ and
_ _ _ _ _ _ _ _ _ _ .

- 6** What are *sanctions*? Why are they imposed?

How AUSTRALIA ASSISTS ITS ASIA PACIFIC NEIGHBOURS 1B

Foreign Aid

Australia’s international aid program aims to help people lift themselves out of poverty.

- 7 How many people in the Asia Pacific region survive on less than \$1 per day?

- 8 By what shorter name is the *Australian Agency for International Development* known?

- 9 The Australian government contributes about \$3.30 per person per week to foreign aid. On 1 October 2009, Australia’s population reached 22 million people. Use these figures to calculate how much aid money is contributed each year.

- 10 Do you think the Australian government should spend more or less on foreign aid programs? Explain your answer.

- 11 List at least six goals of humanitarian aid. One has been done for you.

relief from extreme poverty

Charity and relief organisations

The Australian government, through AusAID, supports various groups operating throughout the Asia Pacific.

- 12 Use the words in the box to complete the names of the organisations listed below.

Asian Red Development Vision World Australia

- a United Nations _____ Program
- b _____ Development Bank
- c World _____
- d _____ Bank
- e CARE _____
- f _____ Cross

How AUSTRALIA ASSISTS ITS ASIA PACIFIC NEIGHBOURS 2

Getting along with our neighbours

- 1** Imagine this scenario:
A foreign government, La La Land, has begun hunting dolphins to harvest their fat to use in making cosmetics. Australia and La La Land are trading partners. La La Land's hunting boats stray into Australian waters where they continue to hunt the dolphins, which are a protected species in Australia.
Is it possible to use diplomacy to satisfy all three requirements in the table below? Make point form notes under each heading to outline the main considerations.

Protect Australia's best interests	Stay friends with La La Land	Do the right thing

- 2** Why has the Australian government been reluctant to interfere with the imprisonment and execution of drug traffickers in some Asian countries?
- _____
- 3** If you worked for the Australian government, what areas of humanitarian relief services would you prefer to work in? Fill in the missing vowels, then circle your choices.

- a** h _ n g e r

c d _ n g e r from e n _ m _ _ s

e n o e d _ c _ t _ _ n

g h _ _ l t h c _ r e

i e p _ d _ m _ c s

k e c _ n _ m _ c h _ r d s h _ p
- b** h _ m _ l _ s s n _ s s

h c h _ l d m _ r t _ l i t y

j d _ s _ _ s e

l r e f _ g _ _ s

Achieving improvements in the region

- 4** Why is the funding of rural development programs so important?
- _____
- _____
- 5** What can you do in your local community to help support poor people in the Asia Pacific region?
- _____
- _____

Co-operating with our Asia Pacific Neighbours 1A

Co-operating to solve problems

There are many problems in the Asia Pacific that require a co-operative effort if they are to be solved. Two of the most urgent issues that affect people on a global scale are *climate change* and *human rights*.

Climate change

1 Define the term *climate change*.

Greenhouse gas emissions

Geographers are trying to find ways to reduce greenhouse gas emissions from human activities.

2 Draw lines to match each cause to its effect on the environment.

Cause	Effect
a Use of fluorocarbons	• Polluting the atmosphere
b Burning of fossil fuels like coal and oil	• Damage to the ozone layer
c Using toxic chemicals in manufacturing	• Extra CO ₂

Increasing demand for energy

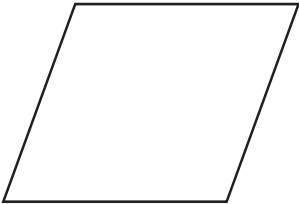

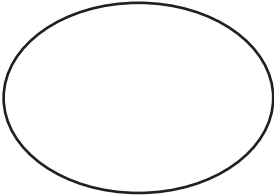

3 How does rural-to-urban migration of people affect energy consumption levels?

Extreme weather

4 List three extreme weather events that affect countries in the Asia Pacific region.

Rising seas

5 Complete the flow diagram illustrating the problem of rising sea levels by copying each label into the correct place and drawing three arrows.
Labels: *more ice melts*; *warming water expands*; *sea levels rise*; *land-based ice melts*

6 Rising sea levels may cause low-lying land to be completely engulfed by the Pacific Ocean. Tick the boxes to indicate the regions that are most at risk of this occurring.

CO-OPERATING WITH OUR ASIA PACIFIC NEIGHBOURS 1B

The spread of disease

- 7** List five illnesses and health conditions that can spread faster in higher temperatures.

Effects on agriculture

- 8** How is climate change affecting agriculture in the Asia Pacific?

Marine environments

- 9** Explain how a marine environment food web is affected by climate change.

- 10** Which huge marine ecosystem in Australia is already being threatened by coral bleaching?

Impacts on ecosystems

- 11** Complete these four threats to ecosystems in the Asia Pacific.

a d _ s _ r _ t _ f _ c _ _ _ _ _

b d _ f _ r _ s _ t _ _ _ _ _

c p _ l _ l _ _ _ _ _

d _ _ x _ t _ n _ c _ _ _ _ _

Gender inequalities

- 12** How is gender inequality linked to economic success in some developing countries?

Freedom of speech

- 13** Why do you think some governments try to restrict the freedom of speech of their citizens?

Co-operating with our Asia Pacific Neighbours 2

Strategies to address climate change

- 1
- Decide whether each statement below is true or false.
- a

The use of solar and wind power to produce energy is an example of clean technology. _____
- b

In some Asian countries, poor people tend to live longer than rich people. _____
- c

In the city areas of developing countries, people regularly get plenty to eat. _____
- d

Instant Lessons PowerPoint – Geography

Quality ready-to-use resources

Teach with a simple-to-use technology product featuring fully-illustrated slide sets and student work sheets that present curriculum in an engaging and interactive manner. Use the Geography PowerPoint series to supplement your existing resources, to introduce new topics or for revision and assessment purposes. This is a time-saving and easy-to-use resource with no additional preparation required.

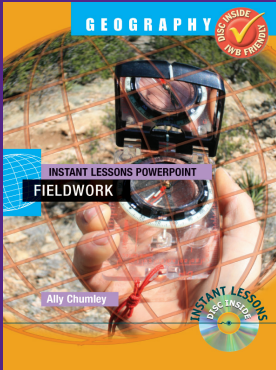

Key features			
Fully integrated slide and work sheet units that include extension tasks	✓	Teacher's notes that summarise key ideas contained in the slide sets	✓
Full-colour illustrations and contemporary photographs	✓	Work sheet tasks and assessments in hard copy and on CD	✓
Key definitions and concepts are explained and illustrated	✓	Suitable for Windows and Mac users	✓

Australia's place in the Asia Pacific

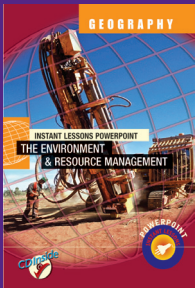

This title of five PowerPoint slide sets and the accompanying notes and work sheets explores the physical and human geography of the Asia Pacific region. Students will discover how Australia interacts in the Asia Pacific region through trade, communications and cooperation, as well as aid, security, defence and diplomacy. The roles of organisations such as the United Nations, ASEAN and APEC are also introduced.
